SUMMARY

Product Designer with 5 years of experience focused on web, specialised in Design Systems and accessibility. I design complex flows on B2C platforms, simplifying the complicated so any user can complete them without friction. I complement my design profile with full-stack development training, which allows me to understand how what I design gets built, collaborate more effectively with engineering teams, and reduce friction during implementation.

WORK EXPERIENCE

Studio Senior | Deloitte Digital | Barcelona, Spain

08/2023 - 07/2024

- Redesigned a public administration digital process, conducting a heuristic evaluation and rethinking the access flow and information architecture to reduce entry friction.
- Designed a user-validated interactive prototype for IMAGIN, focused on simplifying the request flow.
- Designed and implemented new icons and improved components in the SEAT and CUPRA Design System, ensuring visual and functional consistency.
- Produced and edited promotional videos, adapted ads for TMB, laid out newsletters for RACC, and supported marketing strategies for IFEMA.

Product Designer - web SEAT & CUPRA | C14torce | Barcelona, Spain

03/2022 - 07/2023

- Designed and optimised over 15 key features from responsive wireframes following Mobile-First principles.
- Designed the "Book an Appointment" flow for workshop services, achieving a 35% increase in online bookings and deployment across 47 countries.
- Ran usability tests and validated hypotheses through interactive prototypes.
- Redesigned the FAQ section architecture applying UX and SEO criteria.
- Designed, documented, and optimised components and icons within the Design System to improve visual consistency and ease of implementation.

Freelancer | Barcelona, Spain

05/2021 - Present

- Collaborated on SmartPliegos, a SaaS platform for searching and managing public tenders, contributing to UX/UI flows, React/TypeScript frontend, and features such as Favourites, Dashboard, Kanban, and data visualisation.
- Conducted web accessibility audits based on WCAG, identifying usage barriers and proposing inclusive UX/UI improvements.

UX/UI Designer | AB Apartment Barcelona | Barcelona, Spain

02/2018 - 11/2020

- Redesigned and optimised the UI of the personalised search flow and property detail page, working on wireframing, interface design, prototyping, and Design Systems.
- Designed and edited content for the website, newsletters, articles, and advertising.

- Coordinated with the frontend development lead to adapt solutions to technical constraints.
- Researched and benchmarked accommodation-oriented platforms.
- Designed and published the blog within the website.

EDUCATION

- **FullStack Developer** | 4Geeks Academy | 11 / 2024 – 04 / 2025
- **Digital Accessibility Specialisation WCAG AA** | Instituto de Accesibilidad | 11 / 2024 – 03 / 2025
- **Master's Degree in Design and Management of User Experience and Digital Services** | ELISAVA | 02/2017 - 02/2018 | Barcelona, ES
- **Bachelor's in Graphic Design** | Universidad de Los Andes | 09/2003 - 07/2010 | Mérida, VE

TRAINING / COURSES

- **Design System Specialisation** | UXER School
- **UX/UI Design** | UXER School
- **ARIA from scratch: for Design and Development teams** | weAAAre
- **Accessibility for Design Systems and design teams** | Somos Edison

SKILLS

- **UX Research & Strategy:** Discovery, Heuristic Evaluation, Benchmarking, Interviews, Journey Mapping, Process Mapping, Story Mapping, User Journeys, Heatmaps, A/B Testing, Information Architecture, Mobile First.
- **Design Systems & Accessibility:** Design Systems, Governance, Componentisation, Tokens, Wireframes, Prototypes, Handoff to Development, WCAG 2.2, ARIA, WAVE, AXE, Stark, Lighthouse, NVDA, VoiceOver, Keyboard Navigation.
- **Front-end & Backend:** HTML, CSS, JavaScript, TypeScript, React, Vite, Tailwind CSS, Bootstrap, REST APIs, React Query, Axios, Node.js, NestJS, Python, Flask, PostgreSQL, MySQL, TypeORM, Git, GitHub, VS Code, VS Codespaces, Terminal/Bash.
- **AI, Tools & Methodologies:** OpenAI ChatGPT, Google Gemini, Claude, Midjourney, Nano Banana, Figma, FigJam, Miro, Maze, Hotjar, Analytics, Notion, Jira, Agile, Scrum, Design Thinking, Lean UX.

LANGUAGES

- **Spanish:** Native
- **English:** Intermediate (B1)
